### BOSCOLA ANNOUNCES WATER AND SEWER GRANTS

**HARRISBURG, JULY 21, 2009**– State Sen. Lisa Boscola today announced two state grants totaling over \$850,000 for water and sewer projects in Monroe and Northampton counties.

“It is so important that we maintain a clean, high quality water supply,” Boscola said. “I’m pleased to see state funding being used to fund these important projects, especially during these tough economic times.”

Boscola said the projects include:

- Delaware Water Gap Borough, in Monroe County, will receive \$180,000 to repair a leaking water line. Preventing water line breaks and water leakage problems will provide a safe and adequate supply of drinking water.
- Bangor Borough Authority, in Northampton County, is slated to receive \$678,500 to repair deteriorated sewer mains. The project will correct numerous National Pollutant Discharge Elimination System violations and will reduce the number of sewer backups into stream runoff.

The grants are administered by the Pennsylvania Infrastructure Investment Authority (PENNVEST), which funds sewer, storm water and drinking water projects throughout the Commonwealth.
